

DEVASYA GUPTA

B.Tech CS | GLS University (2023–2027) | Ahmedabad, GJ
GuptaDeva700@gmail.com | +91-9638114882 | linkedin.com/in/devasya-gupta | github.com/devasyagupta | devasyagupta.vercel.app

SUMMARY

Final-year CS undergraduate with hands-on experience in machine learning pipelines, NLP systems, and full-stack development. Proficient in Python, Java, JavaScript, and SQL. Shipped production-grade projects spanning AI-powered platforms, text classification, and recommendation engines. Experienced with REST APIs, Object-Oriented Programming, Git, and Agile workflows, and scalable ML systems.

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, SQL, HTML, CSS

ML / AI: TensorFlow, scikit-learn, Pandas, NumPy, NLP, CNNs, TF-IDF, Cosine Similarity, Logistic Regression, Feature Engineering, Model Evaluation, Machine Learning Pipelines, Data Preprocessing

Web & APIs: REST APIs, Flask, FastAPI, Model Deployment, CRUD Operations, Authentication System, JDBC

Tools: Git, GitHub, MySQL, Database Design, Jupyter Notebook, VS Code, Netlify, Unit Testing, Debugging, Agile

EXPERIENCE

Software Engineering Intern – Metrix Healthcare India, Ahmedabad, GJ

Jan 2025 – Nov 2025

- Automated internal data workflows using Python scripting and OOP principles, reducing manual processing time by 35% across operations teams.
- Built and maintained structured documentation pipelines with SQL and MySQL, improving cross-team data consistency and handoff efficiency by 20%.
- Collaborated with technical and ops stakeholders to debug and optimize business workflow applications, cutting average issue resolution time by 25%.

PROJECTS

HireLoop — AI-Powered Resume Tailoring Platform

Jun 2025 – Present

Python, NLP, scikit-learn, TF-IDF, Logistic Regression, Flask, REST APIs, JavaScript, HTML/CSS

- Architected an end-to-end machine learning pipeline for resume-JD semantic matching using TF-IDF vectorization and cosine similarity, improving matching accuracy by 30% over keyword-only baselines.
- Built a responsive resume upload and parsing UI in JavaScript with NLP data preprocessing (tokenization, stopwords removal, feature engineering), enabling real-time ATS score prediction and skill-gap analysis.
- Designed modular Python services for resume parsing, skill extraction, and gap analysis; reduced feedback generation latency by 40% through pipeline optimization and model deployment improvements.

Fake News Detection System

Aug 2025 – Dec 2025

Python, scikit-learn, NLP, TF-IDF, Logistic Regression, Passive Aggressive Classifier

- Built a binary text classifier achieving 94% accuracy using TF-IDF vectorization and a full NLP preprocessing pipeline (lowercasing, stopwords removal, tokenization).
- Benchmarked Logistic Regression vs. Passive Aggressive Classifier with 5-fold cross-validation, reducing model selection error rate by 18% and selecting the optimal production model.

Restaurant Recommendation System

Dec 2025 – Feb 2026

Python, scikit-learn, Pandas, NLP, TF-IDF, Cosine Similarity, Feature Engineering

- Built a content-based recommendation engine using TF-IDF vectorization and cosine similarity, delivering top-N ranked suggestions with 87% user preference alignment in testing.
- Feature-engineered restaurant data with NLP techniques and designed a ranked retrieval system, reducing average query response time by 32%.

RESEARCH PUBLICATIONS

HireLoop: ML-Based Resume Tailoring and ATS Optimization Platform

Zenodo, 2026

- Published IEEE-style research paper on HireLoop in Zenodo with DOI: 10.5281/zenodo.19336067; covers custom ML/NLP techniques for resume tailoring, ATS score prediction, skill-gap analysis, and semantic matching without external generative AI APIs.

EDUCATION

Bachelor of Technology in Computer Science – GLS University, Ahmedabad, GJ

Aug 2023 – May 2027

High School Diploma – Green Valley School, Ahmedabad, GJ

Jun 2019 – May 2023

CERTIFICATIONS & ACHIEVEMENTS

- Google AI Certification – Google
- JP Morgan Chase & Co. Software Engineering Simulation - Forge
- Forward Leadership Program – McKinsey & Company
- Deloitte Technology Job Simulation - Forge
