EDUCATION

➤ Bachelor of Technology – Computer Science

GLS UNIVERSITY – Ahmedabad

2023 – On Going

- Current CGPA: 8.50/10 #Specialisation in AI & ML
- Awarded with Certificate of Appreciation on Outstanding performance with distinction for GLS University.

➤ Higher Secondary Education – CBSE (PCM)

Podar International School – Ahmedabad

2022 – 2023

KEYSKILLS

- Programming Languages Python, Java, C++, C, SQL, Perl, Bash, Scripting Languages
- AI/ML & Data Machine Learning, NLP, Data Analysis, APIs
- Web & Tools HTML, CSS, Git, Visual Studio Code
- Concepts OOPS, Computer Networks, Recommender Systems, Image Processing
- Design & Visualization Figma & Canva

PROJECTS

Farmer Assistance Application (Beejuday) | Python, Data Analytics

- Developed a decision-support app to guide farmers on **oilseed cultivation** and streamline direct **buyer connectivity**.
- Engineered data-driven filtering algorithms and seasonal insights to optimize decision-making and reduce dependency on intermediaries.

River Health Monitoring System (RiverSight) | Python, React, YOLO

- Built an ML system using **YOLO** and **Gradient Boosting** to automate water pollution analysis via algae and color indicators.
- Designed an interactive React dashboard to visualize predictive health scores and complex environmental metrics.

Premium Pet Grooming & Marketplace Platform (Pawfect) | JavaScript, HTML5/CSS3

- Developed a responsive marketplace platform featuring multi-tenant directory modules for salon discovery, package comparison, and dynamically calculated service add-ons.
- Engineered a centralized client-side state management architecture using LocalStorage to persist UI themes and manage multi-pet user dashboards across active sessions.

Government Scheme Recommendation App (AdhiKaar) | Flutter, ML, SQLite

- Developed a system featuring ML recommendation algorithms to match user profiles with relevant government schemes.
- Applied data-driven filtering to simplify benefit access, ensuring reliable data persistence and seamless user state management across application sessions.

ACHIEVEMENTS

- Achieved 2nd Place at a regional showcase event in Surat, sponsored by Shell, by presenting an innovative AgriTech solution focused on improving agricultural productivity and decision-making.
- Recognized in the Pioneer Category at the Beauty Salon Marketplace Buildathon (2026) for proposing the only pet-care marketplace concept among 200+ participating teams.

CERTIFICATIONS

- TCS iON Career Edge Young Professional
- Skills4Future AI Program- Edunet Foundation
- AWS Cloud Practitioner – AWS Academy
- Java Core Programming Fundamentals
- Data Analyst Certification- 365 Careers
- Dashboard Creation with PowerBI- Microsoft
