Ahmedabad, Gujarat

EDUCATION

Faculty of Engineering & Technology, GLS UNIVERSITY
Bachelor of Technology, Computer Science & Engineering
2023-2027
CGPA: 9.13

Vishvaniketan School (VSAS)
XII: 52%
2021-2023

GLS School
X: 83%-93%tile
2020-2021

CERTIFICATIONS

- Recommender Systems: **NPTEL**
- Fundamentals of Java: **Coursera**
- AWS Academy Graduate – Cloud Foundations **Amazon Web Services**

SKILLS

- Languages: Python, Java, C/C++, JavaScript, PHP
- Frameworks & Libraries: React.js, Node.js, Flask
- Web & Mobile: HTML, CSS, Flutter, Android Development
- AI / ML: Artificial Intelligence, Machine Learning, Text Analysis, NLP, DL
- Databases: MySQL, MongoDB, SQLite
- Cloud & DevOps: AWS, Vercel
- Tools: Git, GitHub, Linux (Bash), Figma
- Core Competencies: REST APIs, Full-Stack Development, Mobile Application Development, Object-Oriented Programming (OOP)

ABOUT ME

AI & ML student passionate about software and web development. Enjoy building projects, learning modern technologies, and solving real-world problems through practical experience.

PROJECTS

CO₂ Digital Twin

A 3D interactive dashboard for monitoring and simulating CO₂ levels across India. This application leverages CesiumJS for 3D geospatial visualization, providing real-time and baseline data analysis to support urban planning and environmental interventions. Built for SIH 2025 (Software Edition) Grand Finale.

AI-Powered Cloud Threat Detection

Built an AI-powered cloud threat detection platform using machine learning and Digital Twin concepts for real-time anomaly detection and adaptive threat analysis. Developed predictive models to identify malicious behavior and strengthen cloud infrastructure through continuous monitoring.

OpenDK

Built an ML-powered open-source software recommender using Flask, TF-IDF, Scikit-learn, and SQLite to deliver personalized recommendations across 2,500+ applications.

ACHIEVEMENTS

- **Selected for Pre-Incubation** Cohort 9 at Parul Innovation and Entrepreneurship Research Centre (PIERC) as the founder of a Web3 startup, along with approval for an SSIP grant and incubation support..
- **Team Leader and Two-Time Smart India Hackathon (SIH) Finalist (2024, 2025)** – Ranked among the top teams nationally. Developed a game-based solution for Rural Development and Planning (2024) and a Digital Twin framework for CO₂ capture and intervention (2025).
- **Winner**, GLS FET Internal Hackathon (2024, 2025) – Recognized for innovative problem-solving, technical implementation, and project presentation in consecutive years.
- **Top 10 Finalist**, AU Ingenium 7.0 (2026) – Presented a Digital Twin-based solution addressing urban planning and sustainability challenges.
- **Hosted and Organized a Bug Bounty** Competition during the CyberShadez 2026 cybersecurity event, coordinating challenge execution, participant engagement, and event operations
- **Accepted Research Paper – IEEE CICON 2026:** Machine Learning-Based Adaptive Digital Twin for Real-Time Threat Detection in Cloud Systems
- **Meritorius Scholarship:** Received meritorius scholarship in First Year
