[LinkedIn](#)

[GitHub](#)

Computer Science & Engineering student with a strong interest in Artificial Intelligence, Machine Learning, and Software Development.

EDUCATION

- | | |
|--|-----------------------|
| • GLS University, Ahmedabad | 2023 - 2027 |
| B.Tech – Computer Science & Engineering | Current SGPA : 7.6/10 |
| • Sunny Sky English High School, Surendranagar(GSEB) | SSC (May-2021) |
| • Sunny Sky English High School, Surendranagar(GSEB) | HSC(March-2023) |
-

PROJECTS

Diabetic Retinopathy Detection

[Github](#)

- Developed a deep learning model to detect diabetic retinopathy from retinal images.
- Used Python, TensorFlow, and OpenCV for model development.

AI Tool Recommender System

[Github](#)

- Built a web application that recommends AI tools based on user preferences.
- Used Python, HTML, CSS, and JavaScript.

AI News Agent

[Github](#)

- Automated news fetching, summarization, and content generation using AI.
- Integrated APIs and automation workflow.

Daily Expense Tracker

[Github](#)

- Used Python, HTML, CSS, and JavaScript.
 - Implemented a clean UI and expense management features.
-

SKILLS

- Programming Languages: Python ,C, C++
 - Web Technologies: HTML, CSS, Basic JS
 - Deveolpment Tools: Git, GitHub, VS Code, Jupyter Notebook, Android Studio
 - Libraries & Frameworks: TensorFlow, Scikit-learn, Pandas, NumPy, OpenCV, Flutter
 - Database: MySQL, MongoDB
 - Core Concepts: (OOP), Basic Data Structures and Algorithms
 - AI tools: AntigraVity , ChatGPT , Gemini Pro, Anitigravity
-

CERTIFICATIONS

- AWS Academy Graduate – Cloud Foundations — AWS Academy
- AI for Sustainability & Green Skills (Edunet Foundation)
- AWS Cloud Seminar – GLS ACM Student Chapter

LANGUAGE

- Gujarati(Native)
- Hindi(Fluent)
- English(Fluent)
