Ahmedabad, Gujarat, India

8511639962 | rutvivasani@gmail.com

EDUCATION

GLS University, Ahmedabad

B.Tech in Computer Science & Engineering

2023 – 2027 | CGPA: 7.5

Class 12 – CBSE | 2023 | 80%

Class 10 – ICSE | 2021 | 95%

SKILLS

Programming: C, C++, Python, Java

Web Development: HTML, CSS, JavaScript, React

Database: MySQL

Cybersecurity Tools: Kali Linux, DVWA, Burp Suite, Nmap

PROJECTS

Resolvr — AI-Augmented Customer Support Workspace

- Built a full-stack helpdesk SaaS with React, Express, and PostgreSQL featuring real-time AI reply suggestions (Gemini 2.0 Flash) streamed token-by-token via SSE, SLA tracking, and a complete conversation lifecycle engine.
- Implemented an append-only audit log, macro-based templated responses, and priority-driven due time enforcement across urgent/high/normal/low ticket tiers.

IPL Match Predictor

- Built an end-to-end cricket match prediction system using 6 ML models (XGBoost, LightGBM, Random Forest, SVM, etc.) with Optuna hyperparameter tuning and temporal cross-validation on historical IPL data.
- Developed an interactive Streamlit dashboard featuring pre-match win probability predictions and live in-match win probability tracking with real-time Plotly visualizations.

QR Sentinel – Smart QR Code Security Scanner (Team Project)

- Built a QR security scanner that analyzes URLs before opening them
- Implemented redirect tracing and threat-intelligence checks
- Detects phishing or malicious links and classifies them as Safe / Suspicious / Dangerous

Monochrome Mirror Game – Java

- Built a Java game demonstrating object-oriented programming concepts
-
