

# ARVIND SHARMA

📍 Jind, Haryana, India

☎ +91-9537700893 ✉ [arvindsharma1533@gmail.com](mailto:arvindsharma1533@gmail.com) 🔗 [linkedin.com/in/arvindsharma](https://www.linkedin.com/in/arvindsharma) 🐙 [github.com/aravvsharma](https://github.com/aravvsharma)

## Skills

**Programming & Querying:** Python, Java, C++, PHP

**Web Development:** HTML, CSS, JavaScript, React

**Databases:** MongoDB, SQL, SQLite, SQLAlchemy

**Tools & Technologies:** Wireshark, Nmap, Burp Suite, Metasploit, Apktool, JADX, Linux, Kali Linux

## Education

**B.Tech in Computer Science and Engineering**

**2023 – Present**

*GLS University, Ahmedabad*

*CGPA: 5.6/10*

**Senior Secondary (Class XII) – CBSE**

**2023**

*Saarthi International School, Delhi*

*Percentage: 62.5%*

**Secondary (Class X) – GSEB**

**2021**

*Divine Life International School, Gujarat*

*Percentage: 52%*

## Projects

**GarudaRush: ML-Based NIDS** | *Python, Scapy, MongoDB, Random Forest*

**June 2025 – March 2026**

- Built an **ML-based Network Intrusion Detection System (NIDS)** to detect malicious network traffic using packet-level and flow-based features.
- Captured and processed network packets using **Scapy**, performed feature engineering, and trained a **Random Forest** model for attack classification.
- Developed a backend with **Python** and **MongoDB** to store network events, intrusion logs, and prediction results for analysis.
- Implemented real-time intrusion monitoring with a dashboard to visualize detected attacks, traffic statistics, and model predictions for faster incident response.

**ThothCore: AI Malware Analysis Platform** | *Python, FastAPI, SQLite, OpenAI API*

**Apr 2026 – Present**

- Developed a web-based reverse engineering platform that automates the analysis of **APK, EXE, and ZIP** files through dedicated processing pipelines and background task execution.
- Implemented an intelligent rule-based filtering engine to identify security-relevant files, reducing analysis noise while preserving critical artifacts for investigation.
- Built an asynchronous backend using **FastAPI**, **SQLAlchemy**, and **SQLite** to manage file uploads, job tracking, analysis results, and report generation without blocking user requests.
- Integrated AI-assisted report generation to produce executive summaries, risk assessments, and actionable findings from analyzed files, improving malware triage efficiency.

## Certifications

• **SC-900T00-A: Introduction to Microsoft Security, Compliance, and Identity**

**Oct 2024**

• **Advent of Cyber 2024** – Completed 24-day cybersecurity challenges on TryHackMe

**Dec 2025**

## Leadership Experience

**Student Placement Coordinator** | *GLS University*

**2026 – Present**

- Coordinate placement activities between students, the Training & Placement Cell, and recruiters.
- Assist in organizing campus recruitment drives, pre-placement talks, and placement-related communication.

**Department President** | *National Students' Union of India (NSUI)*

**2024 – 2025**

- Represented the department in student-related initiatives and coordinated academic and extracurricular activities.
- Led student engagement programs and collaborated with faculty and student representatives to address departmental concerns.
