Experience

IBM Cloud & AI Internship — Edunet Foundation

Jul 2025 – Aug 2025

AI/ML Intern, SkillBuilds Program (Virtual)

- Developed and deployed a **FinAI Advisor Agent** on IBM Cloud using RAG, LLMs, and cloud-native APIs
- Built end-to-end AI workflows covering model integration, retrieval pipelines, and deployment automation

gruhfin.com

May 2025 – Jun 2025

AI/ML & Web Development Intern, Ahmedabad

- Integrated financial APIs and payment gateways into a live **FinTech web platform**
- Built sentiment analysis and ML-based forecasting models; collaborated in Agile sprints to deliver features

Projects

AgroCast AI [\[GitHub\]](#)

- AI-powered farm intelligence system using **LightGBM**, satellite data, and ML forecasting pipelines
- Supports microclimate prediction, risk alerts, and multi-channel farmer notifications

Optical-Guided Thermal Super-Resolution [\[GitHub\]](#)

- Developed dual-stream deep learning model for **thermal image enhancement** guided by optical imagery
- Evaluated using PSNR, SSIM, and RMSE; designed for scientific remote sensing applications

Air Quality Forecasting System [\[GitHub\]](#)

- Forecasts ground-level O₃ and NO₂ using **satellite and meteorological data fusion**
- Built Streamlit dashboard with real-time predictions, geospatial visualization, and model comparison

SplitSmart — Expense Management Portal [\[GitHub\]](#)

- Built FinTech expense-splitting system with **greedy debt optimization** and SHA-256 immutable ledger

Publications & Research

Convergence Analysis of Deep Learning Architectures for Stock Market Prediction [\[Link\]](#)

Jan 2025

Conference Paper — Accepted, Presented & Published

- Evaluated convergence speed, prediction accuracy, and stability of overall 11 **LSTM, BiLSTM, Hybrid, and Transformer** architectures on financial time-series data
- Analyzed impact of technical indicators (RSI, MACD) on model stability; identified optimal architecture for volatile market forecasting

Image Captioning using SE-ResNet + SCST

2026

Research Paper — Under Review

- Designed attention-based captioning system (SE-ResNet-50-D encoder + LSTM decoder) on MS-COCO using **SCST reinforcement learning** with CIDEr reward
- Stabilized training via mixed loss (80% SCST + 20% CE); improved semantic accuracy and caption fluency over baseline models

Certifications

- | | |
|--|---|
| • Python with Machine Learning — <i>Acmegrade</i> | • Journey to Cloud — <i>IBM SkillBuilds</i> |
| • AI Green Skills: AI — <i>Shell & Edunet</i> | • TCS Young Professionals — <i>Soft Skills</i> |
| • RAG Lab: LangChain — <i>IBM SkillBuilds</i> | • UI/UX Design Workshop — <i>Gravity Coding</i> |
| • Getting Started with AI — <i>IBM SkillBuilds</i> | • OOP in Java — <i>Coursera</i> |

Skills

Languages: Python, JavaScript, Java, C, C++, HTML, CSS

AI/ML: TensorFlow, scikit-learn, Keras, Pandas, NumPy, Hugging Face, LangChain, RAG, LLMs

Tools: Git, GitHub, VS Code, Jupyter Notebook, Google Colab, Anaconda, IBM Cloud, Linux/Ubuntu

Web & DB: Flask, FastAPI, REST APIs, MySQL, SQLite, Firebase, CI/CD Pipelines

Education

B.Tech in Computer Science Engineering — AI & ML Specialization

2023 – 2027

GLS University, Faculty of Engineering & Technology, Ahmedabad

Key Coursework: Data Structures, AI/ML, Deep Learning, Cloud Computing, Software Architecture

Extra Achievements

- SIH 2025 — ISRO Finalist & Runner-Up:** Top 1% nationwide; built AI-driven remote sensing solution using satellite data and ML
- Breach Economania Hackathon — Finalist & Runner-Up** and **Prayatna 3.0 Hackathon Finalist (2026)**
- Anaconda Inc. USA Research Calls (2×):** Conducted beta research sessions on AI/ML IDE products and UI/UX; contributed product insights to senior teams
- Campus Ambassador, Acmegrade (2024):** Led outreach to 300+ students; 50+ qualified leads · SSOC & GSSOC Open Source Contributor (2024)
