SOAR – Security Orchestration, Automation and Response Platform
Capstone Project | Team of 4 | Integration Specialist

Designed and developed a Security Orchestration, Automation and Response (SOAR) platform to automate cybersecurity incident detection, analysis, and response workflows. Built integrations between security tools and external APIs, developed parsers to convert raw security logs into structured JSON data, and implemented automated response playbooks for faster incident handling. Created alert ingestion pipelines, incident management workflows, and dashboard-based monitoring to improve security operations efficiency. The platform reduced manual intervention, accelerated threat response, and demonstrated end-to-end security automation capabilities.

PERSONAL DETAILS

Gender: Male

Marital Status: Single

Current Address: Usmampura, ahmedabad, Ahmedabad,
Gujarat, India - 380013

Emails: 202302626010133@glsu.edu.in , sujalsoni7297@gmail.com

Date of Birth: 19 Nov, 2005

Known Languages: Hindi, English, Gujarati, Marwadi
