EDUCATION

B.Tech, Computer Science & Engineering (Cybersecurity) <i>GLS University, Ahmedabad, Gujarat</i>	2023 – 2027 CGPA: 8.31
Higher Secondary Certificate <i>Best Higher Secondary School (GSEB), Ahmedabad, Gujarat</i>	March 2023 Score: 65%
Secondary School Certificate <i>Best Higher Secondary School (GSEB), Ahmedabad, Gujarat</i>	May 2021 Score: 85%

CORE SKILLS

Programming Languages: Python, Java, C/C++, JavaScript
Web Technologies & Frameworks: React.js, FastAPI, Django, Flutter, REST APIs
Developer Tools: Git, GitHub, Docker, Postman, Kali Linux, Wireshark, Burp Suite, Nmap, Metasploit
Databases: MySQL, PostgreSQL

PROJECTS

Consekt DLP — AI-Powered Data Loss Prevention System

Purpose: To prevent sensitive organizational data from leaking through endpoints by detecting risky activity in real time and automatically enforcing security policies.

- Engineered an AI-powered detection engine that identifies and classifies sensitive data — including PII — before it leaves the organization.
- Built a policy-driven risk engine that automatically triggers Allow, Warn, Block, or Quarantine actions based on configurable organizational policies.
- Developed a centralized web dashboard for security incident monitoring, policy management, and audit logging, giving admins real-time visibility into endpoint activity.
- Implemented a Python endpoint agent monitoring clipboard activity, USB usage, screen captures, and suspicious processes, with support for automated policy enforcement.

Summary Shelf — Cross-Platform Book Summary Application

Purpose: To give readers a single place to discover, summarize, and organize books, making it easier to track and revisit their personal reading library.

- Building a cross-platform mobile app (iOS/Android) enabling users to discover, summarize, and organize books in a personal digital library.
- Will integrate Firebase Authentication and Cloud Firestore for secure, real-time user and data management.
- Will connect the Open Library API to power real-time book search and metadata retrieval.
- Will design a responsive Flutter UI focused on a seamless reading and summary-creation experience.

EXTRACURRICULAR ACTIVITIES

- Participated in Capture-the-Flag (CTF) competitions, solving challenges across web exploitation, cryptography, and network forensics.
- Participated in Smart India Hackathon (SIH), collaborating on a team-based problem-solving challenge.
- Participated in CyberShadez, engaging in hands-on cybersecurity challenges and community events.
