9265012394 • Ahmedabad, India • divyansh20060523@gmail.com

EDUCATION

GLS University, Ahmedabad

Bachelor of Technology in Computer Science Engineering

2023 - 2027 (Expected) • CGPA: 7.12

TECHNICAL SKILLS

Programming Languages: C, C++, Java, Python

Databases: MySQL, MongoDB

Frontend Technologies: HTML, CSS, JavaScript

Cybersecurity Tools: Wireshark, Nmap, Burp Suite, Metasploit, Kali Linux

Other Tools & Concepts: Git, GitHub, JDBC, RBAC, UML Diagramming, System Design

PROJECTS

Consekt - AI-Powered Data Loss Prevention System - Python, System Design, RBAC

- Designed an AI-powered Data Loss Prevention (DLP) system for SMBs featuring real-time leak detection, secure authentication, and role-based access control (RBAC).
- Created the system architecture, UML diagrams, and workflow models while researching enterprise DLP solutions.

Book Management System - Full Stack Web Application - Java, JSP, HTML, CSS, JavaScript, JDBC, MySQL

- Built a full-stack Book Management System using Java, JSP, HTML, CSS, JavaScript, JDBC, and MySQL.
- Implemented CRUD operations and search functionality for efficient book record management.
- Designed a relational database schema and integrated MySQL for secure data storage and retrieval.

Clothing Brand Website - Java, JSP, HTML, CSS, JavaScript, JDBC, MySQL

- Developed a responsive clothing brand website using Java, JSP, HTML, CSS, JavaScript, JDBC, and MySQL.
- Designed an intuitive product catalog with category-based browsing and responsive layouts.
- Implemented backend integration for product management and database-driven content using MySQL.
